

Pupil Premium at Peel Park Primary School

31% of our school cohort (193 children) are in receipt of pupil premium funding

Effective Partnerships

We have a strong Pastoral Team within school which is led by our Assistant Headteacher. All staff within this team have strong partnerships with outside agencies and they make effective use of this network to ensure that children and families receive the information that they need to manage issues such as attendance, behaviour and wellbeing.

Targeted support

We use PiXL to identify specific gaps in children's knowledge. This allows us to plan systematically to accelerate children's attainment and progress across the core subjects.

Success

Evidence informed practice

As a school, we are proud to be on a journey towards evidence informed practice. Our staff receive professional learning sessions to ensure that our offer is research informed when supporting children from disadvantaged backgrounds.

Enrichment

We recognise that many of our children who attend our school do not always have access to a wide range of opportunities. In order to enrich our curriculum and offer children new experiential learning, we aim to offer **above and beyond**. This includes residential trips, VR experiences, aspirational visitors, sporting experiences and WOW moments.
